

WE STAND FOR LIVE - #Ceasefire, November 22nd 2022

A short note from Ann La-Forker on the occasion of the launch of the peace initiative MightyBeyondMeasure and the start of the inspired action #ceasefire on November 22nd 2022

We have November 2022. Amplified by the shock of the return of war in Europe we launch the initiative MightyBeyondMeasure as a meaningful puzzle piece of a new reality. In which all oppression is ended.

For thousands of years human kind got caught in the power games of passing over and oppression. Sometimes even the resistance of the suppressed ones took place on the very same playgrounds.

It is time for a significant shift in our self definition as human kind. It is time for a natural eversion. To unleash the true power which lays in the radical re-alignment with the truth of our own souls.

Our souls have been abandoned, yes. Our souls have been maltreated, yes. Whether by the act of suppressing others or by the experience of power abuse, it doesn't matter - our souls never gave up on us!

Coming back to integrity with our souls means to become mighty. Mighty beyond measure. We don't take sides. We don't blame. We are simply a living embodied invitation of a peace that we know is human possible, acting "as if". Integrity IS. The world we wanna live in IS.

To train us and to grow into this new culture we commit to a day of ceasefire on the 22nd of the month. Everybody is free to join this revolution in any given moment of history. Every human being is free to join this revolution in any given moment of ones personal life. Regardless the circumstances. Regardless the side one was placed in the power game before. To simply stand for life.

This is integrity. To choose the possibility to re-align with the truth and the power of our souls. With the platform "mighty beyond measure" we are launching today we offer a space for the modern tribe leaders of our time to connect and to create momentum, together.

In bowing down to the many who stood up for life before. Thank you.

Ann La-Forker, November 2022
